# Instruments for commercial promotion

## 1. Joint Task „Improvement of the regional Business structure“ (GA)

Money paid as grants can be given for investments in order to introduce new plant locations or for investments concerning existing plant locations.

Promotion allowances are possible for producing businesses, service businesses and tourist businesses as well.

A condition for financial grants as a basis for rationalization in existing businesses are the compliance of the accrual criteria and the foundation of additional 5% new permanent workplaces or apprenticeship places.

In case of grants for amplification investments there must be introduced additionally 15% new permanent workplaces or apprenticeship places.

The grant is valid for the part of investment, which doesn't exceed 500 T€ per introduced permanent workplace or apprenticeship place.

Arnstadt is part of the A-Promotion-area that takes the highest preference.

The basic value of grants takes 15.0% for investments in existing operation plants of small and middle size businesses (KMU), when the accrual criteria matches and 5% additional permanent workplaces or apprenticeship places will be introduced.

In case of introduction of at least 15% additional permanent workplaces the value takes 20%.

For investments that are of high federal state interest the value can reach additional 5%.

In case of N-KMU (not small and middle size businesses) the values of grants will be reduced by 2.5%. Beside the grants by the GA-program other public-sector bonds can be possibly taken till a maximum value of subvention is reached, for KMU – 50%, for N-KMU – 35%.

## 2. Regional investment programme(LIP)

The LIP promotes founder of new businesses who work freelance for the first time and KMU, which introduce an apprenticeship place without being entitled to any aid within the framework of the GA.

The entitled investment expenses has to be at least 10 T€. The TAB (Thüringer Aufbaubank) pays grants as a part of financing up to 25% of the the entitled, eligible investment expenses but only 25 T€ maximum.

Please note the so called “de-minimis”-arrangement.

## 3. Grants to transfer technology to single businesses

Grants are paid to KMU by TAB to support the technology in single businesses for:

1. Research and development intensions
2. Employment of innovation assistants
3. Procedures using innovativ Information and Communication – Technologies
4. Investments to introduce newest technologies

## 4. Loans for a favourable rate of interest by the Federation and the Freistaat Thüringen

- Founding and growth financing (GwU) – joint action of the Thüringer Aufbaubank and the KfW Mittelstandsbank
- ERP-, DtA- and KfW- programmes

## 5. Tax supports

- Investment grants
- Special tax write of and saving up write of for KMU

## 6. Loan guarantee / investment

- The securing of loans and sureties for financing of investments and means of production is possible up to 80 % of the full loan amount.
- Dormant and active partner as alternative to the classic external financing
- Thüringen-Kapital – dormant partner of the TAB for KMU and freelance business

## **7. Labour market political supports and employment promotion**

The job centre provides different programmes (a selection underneath) for employment promotion or for searching for qualified and suitable staff for all businesses:

- Grants for incorporation
- Grants for employment's when founding
- Measures for training
- Re-educations
- Employment grants for long-term unemployed
- Structure adapting measures (SAM)
- Programs initialized by GFAW mbH

## **8. Indirect promotion through local authority**

- Provision of promoted business areas
- Help in choosing the business location mainly through support in searching for commercial building land and free production areas
- Clear out difficulties with the administration in establishing new businesses
- Provision with information regarding branches, markets, infrastructure and promotion possibilities within the region
- Support through arranging contacts with authorities, commercial chambers and associations

### **notes regarding promotion possibilities:**

There is no legal right for grants. The height of the amount approved depends on the financial situation of the Freistaat Thüringen in the relevant year. The listing of the promotion possibilities is only an overview and not complete. The criterion for being entitled to aid will be checked in every single case. All applications for promotion within the investment area will be checked by the Thüringer Aufbaubank.

# Life in Arnstadt

Who walks through Arnstadt's streets will always be amazed again by the historical buildings and romantic corners. In Arnstadt cultural wealth is linked with small town charm.

Johann Sebastian Bach found his first job here as an organist. Up to now you can still listen to high quality concerts written by the composer in the church "Bachkirche" played on the organ.

The little world "Mon Plaisir" with dolls shows you the baroque world in the museum "Schlossmuseum" and this collection is unique in Europe.

Also in many other places Arnstadt is a little treasure within the cultural landscape which is worth to be discovered.

In front of this cultural back ground there is a good opportunity to connect work and family life. Exemplary for a town so close to the provincial capital the costs for living here are as follows:

Costs for building land:

84 €/m<sup>2</sup> up to 110 €/m<sup>2</sup> fully developed  
(also building contractor models)

costs for flats:

3 €/m<sup>2</sup> up to ca. 6 €/m<sup>2</sup> (cold)

With all this the town Arnstadt offers you a wide range of places in crèches and nursery schools.

## crèches

|               |   |
|---------------|---|
| crèche        | 48 places (children at the age of 3 months) |
